NUMBER 40.

Two More Good Oil Wells

Bledsoe No. 3--600 Barrels

E. Z. Williams No. 1--800 Barrels

More Drilling Sure to Follow

The first thing the Herald "rouster-bout" did this week was to hike out bright and early on an inspection trip too the Hamlin Oil Fields out about six miles from town, in Fisher County.

Quite a lot of interesting news had been trickling in the past few days and for a newspaper man to see is to believe. We saw and we know.

This year when one starts out west from Hamlin his eyes "bug out" in admiration of the wonderful crops—kaffir, maize, cane, shocked wheat and oats, black green fields of cotton, numerous flocks of chickens, and turkeys, and plenty of fat horses and round sleek Jersey cows. But why say "west" for indeed the same list of wonderful things can be seen in every direction.

But there is but one direction that the horizon is speckled with towering oil derricks, or grasshopper looking things that go pumping up and down with a swish swash, of oil. That's the way the Hamlin oil fields look these days. And they reach as far as the eye can see, from a point in the southwest on the Dan Stephens ranch near Royston where the first rich oil was found, and extending east and northeast to a point hardly six miles from Hamlin. To mix producing oil derricks with rich growing fields of crops, and especially when the crops are so rank that they almost hide the oil pumps, it certainly does make a prosperous looking picture.

This picture is NOT overdrawn.

It's all there, the oil field is expanding in a good healthy steady fashion, and the fields are ripening into full harvest. It is enough to make that "old skeptic" reverse his grinch and say, "We've come around the corner." So much for that. Now about the new oil wells.

MRS. J. C. BLEDSOE HAS WELL NO. 3

Some days ago the General Crude Oil Company completed Mrs. Bledsoe No. 3. This well struck the pay at the normal depth of about 3,100 feet and the first swabbing showed the producer to be a well of easily 600 barrels.

We often see in the larger papers that they speak of "test wells." In the Hamlin field it is not proper to say Test. The test age is past. Let it be understood that seldom do they ever bring in a duster in this field. For example, some weeks ago we went to the fields and found three wells drilling on the Pardue farm. Everyone came in good producers. Once upon a time General Crude or Cranfill Reynolds struck oil on the George farm, but later they moved over a few feet and started a new well and today it's a regular pumper. Perhaps in every case where dusters were thought to have been found, the acid test would have made a good well.

E. Z. WILLIAMS WELL CAME IN SATURDAY—AN 800-BARREL PRODUCER

For many weeks the Southern Oil Corporation has been drilling on the E. Z. Williams farm just across the road north of the Pardue farm and producing wells. This well has been watched with extra interest. She hit the pay last Saturday night, at 3,108 and said to be higher than the nearest Pardue well. Monday morning it was all silent at the Williams well, which is known as Southern Oil-Pure-Williams No. 1. Mr. Williams has a lot of land that bids well for more production. This well also extends the field north and also west.

Williams No. 1 was cemented and by the end of this week will be flowing or on the pumps.

Just east of the Williams No. 1 the E. L. Smith Oil Co. on the Hughes fee has a new well now down 250 feet. It is No. 3 B, located in the southwest corner of the east half of the section. It has a double offset, first for the Williams and second for the Mid-Continent Petroleum Company No. 4 Pardue. This Pardue well is now about 2,700 feet with a six inch hole. These two offset wells are pretty sure to be good.

Another location is Southern Oil No. 3-B Pardue.

Back east of the Hitson School is the Rosser & Pendleton-Pat O'Donnell Herring No. 2, rigged up ready for spudding the past Monday morning. This is Mr. Herring's fourth well. Its location is higher than the others and if it makes producer it further expands the fields northward toward the old faithful Haught well.

The Southern Oil No. 2 Pardue-Scott on section 202 has made a dandy well of about 900 barrels. It is deeper than some of the others, and is making quite a bit of water.

The various distinct areas of the Hamlin Oil Field continues to hold many possibilities for further development. The situation thus far has been a drilling where off-sets were required. No where has any farm been drilled out. Even the cluster of wells on the Pardue "plantation" are far from "saturation." Pardue looked ahead however, and so leased his lands that one well made an off-set necessary for another. For example lease block No. 1-A or No. 4-B.

It is noted that other parts of this area or of the "secondary plains" country, are wild-cating and finding some oil. Indications are that oil in some quantities might be found in most of Jones and Fisher County. Oil has been found in so many of

the counties of this area. Stephens, Shackelford, Taylor, Throckmorton, Callahan, Haskell, and don't be surprised to learn of oil just north of Hamlin, either in Jones County, Fisher or Stonewall.

There is no exciting boom anywhere, but everywhere the farmer who has been holding on and now finds some oil is a happy party. The fields are helping the labor question a lot, and naturally helps all kinds of business.

Hamlin people are proud of our oil interest, our oil industry workers, and the growing enterprises because of the oil near here.

Each new well calls for another, and thus gradually the field expands, and more securely the industry becomes in this area.

W. L. Fletcher, treasurer of the National Rural Letter Carriers Association returned last Saturday from a two weeks attendance of the State Conventions of Rural Letter Carriers of Louisiana, Oklahoma and California. Next week he will leave for Boston to attend the National Rural Letter Carriers Convention. Bill, as his Hamlin friends call him, is leading an active life, filling his rural route and playing Treasurer for the whole U. S. Mrs. Fletcher joined her husband in attending the big convention at San Angelo. This was one of the largest State postal meetings Treasurer Fletcher has yet attended, and he says it was the best. Eleven hundred employees were present.

Mr. and Mrs. John T. Day left Thursday for Gainesville, Ga., where they plan to stay three or four weeks with their daughter, Mrs. Garland Tumlin and husband. Mr. Day's sister, Mrs. Gorman, of Dallas, joined them on the trip.

Mr. and Mrs. Elmer Feagan returned Saturday from a trip to points in Colorado, visiting in Trinidad, Estes Park and Colorado Springs. His mother, Mrs. J. H. Feagan, remained for the summer at Dalhart with her daughter.

Arlie Cassle returned Wednesday from a ten days vacation in Dallas and other Texas points.

Truett May came in on Wednesday of last week to spend a week here with his parents, Mr. and Mrs. M. P. May. Truett is one of Hamlin's boys who is making good in a government position. He is in the U. S. Bureau of Public Roads as Traveling Auditor. His work up till this trip has been in the New England States, but now he is really on his way to Ogden, Utah, taking a new territory including Utah, Idaho, and Montana. Before this he was with the Finance Department of the War Department. On his trip to Ogden, he was allowed a week off to drop south to Texas and Hamlin. From the expressions of Truett, it was clear he thoroughly enjoyed seeing home folks and Hamlin people again. He says old Hamlin looks better than ever.

See J. S. INZER, Hamlin, Texas.

LIONS BACK FROM MEXICO

HAMLIN STILL LEADS WICHITA V. LEAGUE

It is not improper to say that the "Lions" came rushing out of the mountains of Mexico and arrived in Hamlin about 4:00 P. M. Tuesday.

This means that Dr. and Mrs. Turner Bynum, Attorney and Mrs. Maurice Smith and Attorney Gerald Morgan, made it back to the land of Texas and happiness after an absence of two weeks in the Mexican Republic.

Relatives of these folks were becoming uneasy because of the time they were taking to reach home, especially since they had written that they were starting home on Thursday, July 25. A million things could be thought of that might have happened. Rotarians, who had made the trip, assured everybody that only two things could likely have happened—either a high river or a pile of rock and mud in a mountain stretch. The mud and rock was the cause of the delay.

They left the City early Thursday and by 3:30 P. M. came upon a great pile of rock and dirt that had been blasted off the mountain into the road, and there they had to stop for 36 hours. So, therefore, notwithstanding, hence—they will always remember "Chalpulhouean."

Like all others who "went that way" they never will catch up with telling all about it. And like all others they have plenty of advice to give the "other fellow" who will not believe anything till he sees it and then he will wonder why the truth was not told him. Anyway they must have had a good trip, and after a few weeks will recover fully.

SAM ADKINS MOVED

GROCERY TO NEW LOCATION

This week finds Sam Adkins and his stock of groceries in a new location.

The building formerly used by the City Market, two doors south of the Ferguson Theatre, is his new home.

This building is now owned by J. Ubben and recently it has been overhauled and converted into one of the pretty business places in Hamlin. Sam will have plenty of room and frontage.

D. Freedman is again opening in his building from which Adkins removed. Mr. Freedman is restocking with a complete line of groceries. For a while Mr. Freedman thought perhaps there was a city somewhere that would beat Hamlin. After looking and looking he decided Hamlin could not be excelled and so his smile will again greet you in the grocery business in his own building.

FINE FARM FOR SALE

Best stock farm in Comanche County, Texas; 400 acres, Sheep and Goat fenced; also cross fences; two sets improvements. One mile of running water, two good wells and wind mills; 125 acres in cultivation, in corn and cotton. New, good barns; 12 acres young orchard, 1000 good pecan trees. Will take \$25.00 per acre, half cash. Terms on balance.

See J. S. INZER, Hamlin, Texas.

McCAULLEY METHODIST

STARTING A MEETING

The Herald has a card from Rev. J. R. Bateman, pastor of the Methodist Church at McCaulley, saying that his church will begin a revival meeting on Saturday night, August 3.

He invites everyone to attend. He solicits all to join with a helpful spirit. Tell your neighbors.

too the plate while Pippin, third sacker, followed with a triple and a single out of five times at bat. Courtney has beat Hambright three games in a row.

GOREE HOT DOGS PLAYING

HAMLIN SUNDAY

While Hamlin stands at the head in the number of games won and NONE yet lost, the Goree "Hot Dogs" are so close on the Pipers' heels that it is really uncomfortable. Just a half game from a tie up. And something is going to pop in Hamlin this very Sunday. Goree will be here determined to "gore" the Pipers to place a different picture in the Wichita Valley League.

To prove that the Goree "Hot Dogs" are on the trail of the leader, they went over and tracked down the Munday "Middle-weights" last Sunday to the tune of 10 to 2. So, you may expect a hot time down on the Hamlin lot Sunday afternoon. Very likely Goree will use their new pitcher, Homer Lewis, recently acquired from Wichita Falls. Hamlin will perhaps have Ralph Hallums back at third base, and maybe Courtney in the box. Maybe Courtney will not be needed and some other twirler will get the honor of stopping the "Hot Dogs."

Goree is a nice little town with a lot of fine folks who enjoy clean sport, and they will be here Sunday to see a good game, win or loose. Go down and see how it comes out.

Miss Annie Laurie Johnson is visiting friends in Altus, Oklahoma.

BETTER GET HOT

It is said that the people of Texas are very indifferent as to how they think and how they will vote on several amendments on August 24. There are several subjects that should make the voters "get hot." One is whether or not Texas will repeal its prohibition clause.

One so-called "neither-side" senator says that "unless Texans were shown facts and figures of what liquor traffic, uncontrolled and untaxed is costing the state, which fact was brought out by a certain investigating committee (and we believe the liquor crowd was the daddy of that committee) prohibition will continue in the state statutes without force and effect, except to deprive the state of badly needed revenue. Such a senator is nothing but a realist, or he is too dumb to realize the liquor forces are using him as a goat to beat for them."

The senator says liquor traffic is uncontrolled, yet he says he voted to change the constitution so that we would outlaw the open saloon. If it is "uncontrolled" now with a constitution and laws against it, how about it after it all has been removed? He says that if the amendment is carried it will "forever bar saloons." Nobody but officers and public sentiment will bring about the "banning" and maybe to repeal our prohibition clause everybody will see to it that officers enforce the law.

The same senator says that he cannot believe it is true that many old people will vote for the old age pension and at the same time vote against the repeal of our prohibition. A senator who straddles and assumes in such a manner has disqualified himself for his job and his constituents should ask for his resignation.

Miss Lois Saunders, of Nugent, was a guest of her sister, Mrs. J. V. Harrell, the past week.

SIDELIGHTS ON CONGRESS AND ROOSEVELT:

SENATOR BYRNS RECALLS MANY LONGER SESSIONS OF CONGRESS

"This session of Congress hasn't been so hard," said Speaker Joseph W. Byrns to the press on his 66th birthday, July 20. "It has lasted 198 days but 47 previous sessions have lasted much longer than that. I well remember that in 1918 we also had important legislation to enact which vitally affected the welfare of the nation. That session lasted 354 days."

The speaker evidently was thinking of the attempt now being made by critics of the Roosevelt Administration to make it appear that the President is "holding Congress in session" against the wishes of its members and the country. He said he found no such sentiment and he added: "Since I became a member of the House in 1909, I have never served with a Congress any better than the present one."

* * *

DICTATORSHIP OR

DEMOCRACY?

"Let us examine the specific charge of dictatorship.

"Could the farm program be put into effect without the willing cooperation of the farmers themselves?

"Were not the industrial standards devised by business men themselves—which they declare they are retaining—for their own mutual protection against the unfair competitor?

"To make manifest and to effectuate the will of the people themselves is NOT dictatorship.

"It is the essence of Democracy. It is the keystone of the New Deal."

—Senator Robert F. Wagner.

BEWILDERED

Probably chief interest in the August 24 election on the seven proposed constitutional amendments will center on proposition No. 3 on the ballot—the repeal of prohibition, according to Secretary of State Gerald C. Mann.

The Constitution, at present, prohibits the sale, manufacture and transportation of alcoholic liquors (except 3.2 beer). This prohibition would be stricken out by adoption of the repeal amendment.

The proposed amendment specifically prohibits the return of the open saloon—and it would be up to the Legislature to define the term "open saloon."

No machinery is set up for the sale of liquor. The Legislature would have the authority to determine just who and just how liquor is to be sold. This could be done by state monopoly or through private channels. The Legislature would

have the authority to pass laws regulating local option elections.

If the amendment is adopted all

counties, cities and precincts that were dry in 1919 when statewide prohibition was adopted would be dry now—at least until local option elections were held to determine otherwise.

It is well to remember, Secretary Mann points out, that there will be an election next year in November to determine whether the state shall sell liquor through a state monopoly system. If the repeal amendment is defeated in August, it will in effect be submitted again in November, 1936, in the state monopoly amendment which says the state shall have a liquor monopoly. To retain the present dry status both the August 24 amendment and the November, 1936, amendment must be defeated.

Passage of either will repeal the present section of the Constitution.

* * *

HOW FLIMSY: And what a mess the past legislature made of submitting an amendment to the people to do away with our present prohibition clause in our constitution. Think of permitting whiskey and say not have a saloon. That is impossible—if it's not open it will be behind closed doors, or in some dive, better say "Let's have our saloon wide open."

Mind our word—if this amendment is adopted, the people of Texas will join their recent legislature in making a still bigger mess of things. Note again, what was put over on the Old Drys. It makes no difference if the August election goes for repeal, there will be another vote in 1936 to determine if the State desires to go into the liquor business. Better nip this thing in the bud on August 24.

OLD AGE PENSIONS

A study of sturdy self-reliance under trying conditions is suggested in a prize-winning letter on old age pensions appearing in the current issue of THE PROGRESSIVE FARMER:

"It is a horrible thing that so many thousands of fathers and mothers of this generation, who have toiled their lives away until they can no longer work, must now go on unfed, unattended, and unclothed. I am 68; have worked hard by day and studied hard by night, and endeavored to live honestly and justly with my fellow man. But I am past manual labor; partially paralyzed in one leg and foot with an almost helpless wife to care for, and a homeless sister. We haven't starved, it's true, for I have a little shop, work on guns and clocks, but I don't average \$5 a month. We haven't been able to buy any clothes or pay taxes. I do not believe in going to any such extremes as \$200-a-month old age pensions, but if \$30 per month were added to my little earnings I could buy clothes and hire some strong unemployed person to do my manual labor for me, thereby benefitting others besides the old age pensioner himself."

Miss Elizabeth Rice of Bethany, Oklahoma, visited in the home of Rev. and Mrs. J. H. Whitaker the past week. She accompanied Paul and Miss Bernice Whitaker from Bethany to Hamlin for a short visit with their parents.

Mr. and Mrs. Tom Holman and little daughter, Miss Tommie Nell and Miss Mary Jane Jones returned Saturday from a trip to Cotulla and Corpus Christi.

PWA HINTS

AND THIS IN GRAND

OLD TEXAS NOW

AUSTIN, July 31.—There are approximately 140,000 employable Texans on the relief rolls eligible for employment on Works Progress Administration projects, it has been revealed by the Texas Relief Commission.

Of these, 115,000 are men and 25,000 are women.

The job of transferring these from the Emergency Relief Administration rolls to the WRA rolls where they are expected soon to obtain work on projects created through the \$4,800,000 works fund, \$50,000,000 of which has already been allotted to Texas, is now in full swing in the County Administrators' offices throughout the state, Mrs. Val M. Keating, social service director, has announced.

Twenty district supervisors are in the field assisting County Administrators in certifying the employables and co-ordinating the transfers.

Certification of employables to the WPA rolls is expected to be completed in about a week, giving a pool of 140,000 persons for the WPA to draw from for its projects.

Any person eligible for employment on WPA projects is defined as one capable of working who is now on the relief rolls and is registered with the United States Employment Service.

Mrs. Keating has directed the 20 supervisors to co-operate with the County Administrators in certifying the employables and making prompt transfers.

By ALLEN G. IRELAND

Director, Physical and Health Education

New Jersey State Department of Public Instruction

The Scout's Trip

Preparations were being made for the annual hiking and camping trip of the Boy Scout troop. Food was the chief topic of discussion.

Some boys were worried about the amount they would have to carry, but the others had different ideas.

"We don't need to carry much," they said. "There are farms near camp and along the road we're taking."

"That's right, fresh vegetables and milk. Nothing better than that. The farmers have butter too, and we can get bread at the village store."

"What about the milk," asked one boy. "Will it be safe?"

"Sure it will," replied one who seemed to be posted. "Some of the farmers pasteurize their milk at the farm and the other farms are approved by the state inspectors."

"Wait until you see those dairy barns," added another, "they're as clean as a kitchen. And you won't find any diseased cows either. The state is very strict. You'll drink milk all right, a quart every day. That's what I'm going to do."

"Peas and string beans will be ready, and young carrots, lettuce, and tomatoes. Boy! I can taste them now. Berries for dessert. Some eggs from the farmers and some bacon and meat from the store. We're all set. Let's go!"

In his next article Dr. Ireland will discuss the problems of touring, especially when children are along.

LOST AND FOUND

It has been a regular service of the Herald to restore lost dogs, watches, wallets and whatnots to anxious owners. But today our attention is called to the fact that we have helped find something which the owners did not know they had lost.

"Thanks to the Herald," says a Hamlin Gulf Station man, representative of the Gulf Refining Co., "a multitude of motorists have found that they have been losing gallons of good gasoline without realizing it—just as surely as if there were a leak in the gasoline tank!"

The Hamlin man refers to the result of a series of advertisements now running in the Herald by his company, offering all motorists the new free booklet, "15 Ways to Save Gasoline Money."

Soon after the offer appeared in your paper, motorists began to call at our filling station to claim their copy of the booklet, and the original supply had to be renewed. An enthusiastic demand for them continues.

Among the 15 simple, money-saving hints illustrated in the attractive little Gulf Booklet is a pertinent pointer on parking. It explains, to the surprise of most motorists, that a car figuratively "burns up gas" even when it is parked, depending upon where and how you park it. Other hints in the booklet that materially increase mileage-per-gallon deal with proper use of the self-starter, accelerator; gear shifting and other ordinary operations in driving, any one of which wastes quantities of gasoline if carelessly done.

Titled "15 Ways to Save Gasoline Money," the booklet is free for the asking at all Gulf service stations and dealers'.

HASKEL INVITES YOU EARLY

HUNTING MEN FOR CCC CAMPS

Haskell, Texas, July 31. — Definite plans were announced this week regarding the eleventh annual Central West Texas Fair to be held in Haskell, Texas, October 16th to 19th. The fair this year will be in commemoration of the fiftieth anniversary of the organization of Haskell County in 1885. In keeping with this a special program of features are being arranged for the entertainment of the old settlers of this section of Texas. All old settlers will be admitted free of charge to all the attraction of the fair upon registration with the fair secretary. Registration may be made by mailing your name together with the date of your arrival in West Texas to Mrs. H. T. Sullivan or by registration upon arrival in Haskell.

The fair will open with a parade featuring a picturization of the progress and history of West Texas. Sponsors are being invited from the neighboring towns and cities to take part in this parade. Following the opening parade the horse racing program will open at Rice Springs Park. This program will continue for four days with a minimum of five races each day during which time over \$1,000.00 in purses will be given away. Parimutel betting will be operated under a license from the State Racing Commission.

Other features of the celebration will be the coronation of the Queen, a monster pageant with a cast of over 500 people picturing the history and development of the west, an old settlers' picnic and reunion at which leading Texas figures will be invited to speak, exhibits of live stock and farm products and the carnival attractions of Tidwell's Shows on the midway. In addition on the opening night the high school teams of Rochester, Knox City, Munday, Aspermont and one unnamed team will participate in a football tournament to decide the Golden Jubilee championship. Haskell High School will play on Friday night.

With this program in view Haskell and the Central West Texas Fair Association confidentially anticipate one of the greatest Central West Texas Fairs ever held and are extending to all Central West Texas a sincere invitation to attend and participate in the fair. Catalogues may be had by mailing a request for the same to the fair secretary at Haskell, Texas.

Mrs. A. W. Littlefield and children of Weatherford, and Mr. and Mrs. Alva Stover of Iraan, were visitors with Mr. and Mrs. J. M. Ripetoe, the past week-end.

Miss Peggy Greenway returned Monday from a weeks visit with her uncle, W. E. Reynolds and family, at Munday.

Y. W. A. meeting at Lueders last Friday.

The Methodist revival will open at the tabernacle Friday night, Aug. 2. Bro. Bateman, the pastor will be assisted by Bro. Davison, of McMurry College. Please remember the lost of our community in your prayers. The religious census, when taken last spring, showed around 200 lost people in this community. We wonder if Christians are not too careless in our Christian life, as the unsaved don't see much to our religion. Let us begin and try our best to live our religion daily.

SUSIE MAE GILBERT, Secy.

CARD OF THANKS

We desire to express our thanks and appreciation to the people of Neinda and Hamlin for their kindness shown when death took our son, father and brother, Claude Hooper.

Mr. and Mrs. Paul Smith, Harrison Hooper, Mrs. Tom Eakins, Mrs. Watson, Mrs. Fulton McLendon.

Mrs. Calvin Smith and son, Junior, and Mrs. Smith's sister, Miss Bonnie Miers of Rotan, left Thursday for their old home in Eldorado, Ark., for a summer visit.

try Gulf 3 weeks
IN THE "TRAFFIC COURT"

Wanted: A fair trial

If it's been some time since you've used Gulf, try it 3 weeks—then give us your verdict.

Try it in traffic. Starts. Crawls. Get-aways. Climbs. There's no fairer test—and we think you'll confirm a recent judgment . . .

750 Turned Judges

We went to 750 owners of average cars—asked them to judge Gulf against their regular brands on mileage, starting, pick-up, power, all-around performance.

Gulf Won the Verdict!

At the end of the trial, 7 out of 10 voted Gulf superior on one or more of the 5 counts—many on all five.

Reason? Controlled refining makes Gulf 5 good gasolines in one. Gives it not only 2 or 3—but all five qualities of a perfect gasoline.

Try That Good Gulf 3 weeks—and you'll be an addict!

GULF REFINING COMPANY

Q. What tip on "pickup" can cutdown gasoline bills? You'll find the answer in this Gulf Booklet, plus 14 other valuable economy hints. Free—at the Sign of the Orange Disc.

THAT GOOD GULF GASOLINE

Harnessing Electricity to Make Radium

Experimental Laboratory at Round Hill, Mass., Tests Huge Generator

SINCE the discovery eighteen months ago by French physicists Jean-Frédéric Joliot and his wife Irène Curie-Joliot, daughter of the late Marie Curie, of how to make some ordinary elements radioactive, physicists and chemists have attempted to produce sufficient quantities of these elements to try their value in treating malignant diseases such as cancer.

The difficulty, reports *The Literary Digest*, is that only a few atoms of the element become radioactive under the bombardment of atomic bullets. Two things are needed: higher voltages to increase the num-

bombardment experiments. On the top of two towers are large metal balls which collect the charge generated electrostatically.

Between the balls will be placed the world's largest vacuum tube, a foot in diameter, twenty feet long, divided into five sections. It is provided internally with specially de-

ber and power of the bombarding particles, and a quick method of separating or concentrating the radioactive atoms after they have received the activating treatment.

World's Largest Vacuum Tube
At Round Hill, Mass., a huge high-voltage generator, built by Dr. Robert Van de Graaff, of M. I. T., and his associates, Drs. Lester and Chester Van Atta, will undergo physi-

India's Sporting Prince

Twice Winner of Derby—He Takes No Chances

Most colorful of sporting figures is the Aga Khan whose Bahram gave him a second winner (Blenheim in 1930 was the first) in the 156th English Derby, instituted by the first Earl of Derby in 1780, says *The Literary Digest*.

Chevrolet is proud, too, of the fact that the United States Department of Justice had made it possible for them to offer the first authentic broadcasts covering the remarkable exploits of the Federal Bureau of Investigation in its war on crime.

Chevrolet, in setting out earnestly and resolutely to dissipate the false glamour that has surrounded enemies of the public, feels that it is performing a public service. Here are its purposes, as outlined by Mr. Howard:

To bring assurance to law-abiding citizens that the country is being made safe for them to live in.

To aid the Department of Justice, by letting the public know how it operates and how the public may cooperate with it in its war on crime.

To deter the commission of crime by showing potential criminals the utter uselessness of pitting their own misguided ingenuity against the organized intelligence and the scientific methods the Bureau of Investigation uses.

"Each of these Saturday broadcasts," said Mr. Howard, "will be a complete episode in itself, based on the actual records of the Federal Bureau of Investigation and covering actual case that many listeners will recognize."

"In each broadcast the listener will be taken behind the scenes as if he were a 'G-Man' himself, to learn how, step by step, the Federal operator work, both in the locality of the crime and in the Washington laboratories where the science of crime detection outdoes the feats of the most famous detective of fiction."

Misses Laura Q. Martin, Clydene and Elmo Joy Wilson, and Walter Manning and Glenn Hopkins of Abilene, spent the week-end in Fort Worth.

Mr. and Mrs. J. H. Sauls and Jack, went up in the Spur and Roaring Springs country. He reports crops not so good up that way.

Mrs. John Ecker, of Dayton, was here Wednesday on business connected with her Vogue Shop. She and Mrs. Sarah Lou Cope will go to market Sunday.

Mr. and Mrs. T. F. Smith, of Memphis, Tenn., were here last week to visit their daughter, Mrs. T. A. Carter and family.

Robert Fowler and Ted Longino returned Sunday from Camp Tonkawa, where they had spent the week.

Eddie Jay reports Mrs. Jay improving very satisfactorily, and will

be able to come home from the sanitarium in about two weeks.

Miss Letha Edwards, of Neinda, is spending several days in Oklahoma City, as a guest of Miss Freddie Jones.

J. H. Moore, of Spur, is with the Hamlin Piggly Wiggly store. Mr. Moore has been with this line of grocery stores for three years.

Mr. and Mrs. M. P. May and Mrs. Robert May and little son left Thursday for Cuba, Alabama, to visit ten days.

TELLS HOW BANKS AIDED PROGRESS

Economist Describes the Ways Banking Institutions Have Contributed to Development of United States

OMAHA, Nebr.—Privately owned banking, despite its faults, has served America well, William A. Irwin, Professor of Economics, Washburn College, Topeka, Kansas, declared in a recent address here on "Banking in a Changing World."

"Under the leadership of individuals banking has helped to bring this country to a foremost place in economic development among the nations of the world," he said. "The small community has been developed by the individual bank. The frontiers of America have been pushed forward by the help and counsel of the individual banker. The shocks of wars and depressions in a century and a half have been withstood with the assistance of the individual banker."

Change May Be Necessary

"It may be that we have reached a tide in the affairs of America when new methods are needed. It may be that we have come to a point where the individual should be submerged for the greatest good of the greatest number."

"It may even be that complete centralization of the banking system has become an economic necessity in our complicated social life. But the banker ought to be satisfied that these things are so before he should give up his fight for the system we have known. We came to greatness under that kind of banking; we should not give it up without unmistakable proof of the absolute necessity of such a change."

The American Pattern

Professor Irwin said that the proposal which has been advanced for coordinating banking operations in the national interest under a "Supreme Court" for banking is typically American and ought to have the most serious consideration of those elements which are clamoring for political control, which is typically un-American. It is not wise, he said, to oppose changes as such, but that bankers should "see to it that change, if and when it does come, shall preserve all that is good in the past and stick as closely as possible to the American pattern of things."

Banking is properly a conservative profession, he pointed out, and should cling to practices and principles of banking that are, and always have been fundamentally sound.

"It is to its credit that so large a group of its members never faltered, even in boom times, in their allegiance to those sound principles," he declared. "We probably owe our salvation from chaos to that fact."

BANKS AND COLLEGE LAUNCH NEW SCHOOL

Aims to Offer Studies in Advanced Banking Subjects to Bank Executives—Public Duties of Banks Stressed

NEW BRUNSWICK, N. J. — The Graduate School of Banking, an unprecedented educational project, operated under the joint auspices of the American Institute of Banking Section of the American Bankers Association and Rutgers University, with 230 enrolled students from 35 states and the District of Columbia, inaugurated here in June its first resident session.

The states represented and the number of registrants from each were as follows: Alabama, 2; Arkansas, 2; California, 2; Connecticut, 9; Delaware, 3; District of Columbia, 6; Florida, 2; Georgia, 3; Idaho, 1; Illinois, 8; Indiana, 2; Iowa, 1; Kansas, 1; Kentucky, 2; Louisiana, 3; Maryland, 1; Massachusetts, 9; Michigan, 5; Minnesota, 1; Missouri, 5; Nebraska, 1; New Jersey, 31; New York, 50; North Carolina, 8; North Dakota, 1; Ohio, 7; Oklahoma, 1; Oregon, 2; Pennsylvania, 32; Rhode Island, 1; Texas, 5; Virginia, 6; Washington, 1; West Virginia, 1; Wisconsin, 4; Wyoming, 1.

The annual resident sessions of the graduate school will be supplemented between periods by continued extension work for the students at their homes. The purpose of the school is described as being to offer in a three year course a comprehensive approach to an advanced study of the various administrative problems in banking and trust institutions. The teaching procedure is a combination of the case system and the lecture discussion method.

The Curriculum

The curriculum embraces banking administrative problems and policies, bank investment problems, legal and managerial aspects of trust business, legal phases of bank administration and economic problems in the field of money and credit. The public relations and responsibilities of banks and methods for meeting these obligations are emphasized in the courses.

It is planned to set up similar schools in cooperation with other universities in various parts of the country. The school will add 200 registrants each year for two years until 600 are enrolled.

The trustees of the Educational Foundation of the American Bankers Association have set aside funds from the foundation to grant 100 loan scholarships of \$150 each to qualified applicants for attendance at the school.

COMMITMENT OF INSANE PROPOSED AMENDMENT NUMBER TWO

Proposed No. 2 on the August 24th special election ballot has to do with the temporary commitment of insane persons, preliminary to a trial by jury.

Under the present Constitution whereby everyone is guaranteed a jury trial, it is impossible to commit a mentally ill person to an institution for treatment or observation without the necessity of a jury trial. It has been pointed out that this is often very inconvenient and embarrassing.

The proposal, according to Secretary of State Gerald C. Mann, if passed, would authorize the Legislature to pass such laws as would permit mentally ill persons to be confined by County Courts in institutions presumably, or under the care of physicians or experts for a period of ninety day period of confinement would be for the purpose of observing such person.

The provisions would apply only to persons not charged with a criminal offense.

The Amendment specifically sets out the right of trial by jury shall remain inviolate, but that in the particular case of insane persons a confinement period of ninety days for observation may be prescribed without the necessity of a jury trial. At the end of that time a jury trial would be had.

My Favorite Recipes

Frances Lee Barton says:

PERHAPS there is no cake, in all the royal book of cakes, quite so indicative of true cooking skill as an angel food. It is the most delicate and aristocratic of all cakes, and like all worth while things, in any field of endeavor, not to be arrived at too easily. But when you serve this cake to your family or to your club you have something. It is so light, and with the cherries, so extra good, that you feel you've graduated into the sacred circle of cooks. And that is a distinction of which to be proud. Be sure to make it with cake flour and most of your angel cake difficulties will disappear.

Cherry Angel Food Cake

1 cup sifted cake flour; 1 cup egg whites; 1/4 teaspoon salt; 1 teaspoon cream of tartar; 1 1/4 cups sifted granulated sugar; 1/4 teaspoon vanilla; 1/4 teaspoon almond extract; 1/4 cup maraschino cherries, finely chopped.

Sift flour once, measure, and sift four more times. Beat egg whites and salt with flat wire whisk. When foamy, add cream of tartar and continue beating until eggs are stiff enough to hold up in peaks, but not dry. Fold in sugar carefully, 2 tablespoons at a time, until all is used. Fold in flavoring. Then sift small amount of flour over mixture and fold in carefully, continue until all is used. Pour about 1/3 of cake batter into ungreased angel food pan. Sprinkle 1/2 of cherries over it, add another 1/3 of batter, then add remainder of cherries and rest of batter. Run knife through to bottom of pan to mix cherries evenly throughout. Bake in slow oven at least 1 hour. Begin at 275° F. and after 30 minutes increase heat slightly (325° F.) and bake 30 minutes longer. Remove from oven and invert 1 hour, or until cold.

Mr. and Mrs. Hugh Gafford and son, Charles, left Monday night for San Antonio, on account of Mr. Gafford's father being seriously ill.

Miss Fay Dunnam left Sunday for Winters where she will visit her sister, Mrs. Clyde V. Bailey and other relatives for two weeks.

Ted Russell is back home from a two weeks vacation with his family and sister at Ruidoso Summer Resort in the New Mexico mountains.

Mr. and Mrs. J. E. Bury returned Monday from Austin, where they had visited their son, George Bury, who is a student in Texas University.

My Favorite Recipes

Frances Lee Barton says:

IN my note book of good things to eat, I wrote opposite this recipe "perfect for porches, parties and summer festivities." Moon-shaped slices of Honey Dew melon set in lime-flavored gelatin, and spiced with mint is just about a perfect combination for any of these occasions. I serve Minted Honey Dew with small, lightly frosted cakes and tall glasses of iced, minted tea. It makes a Hottentot feel as cool as an Eskimo.

Minted Honey Dew

1 package lime-flavored gelatin; 1 cup warm water; 1 teaspoon chopped mint leaves; 1 cup minced honey dew melon.

Dissolve gelatin in warm water. Add mint leaves. Prepare melon and add. Strain mixture through very fine sieve. Turn into individual molds. Chill. Serve as a dessert, or as salad on crisp lettuce, with mayonnaise. Serves 4.

ENTERTAINED WITH EIGHTY-FOUR

Miss Ella Temple was joined by Mrs. Ira Clements when she entertained in her home on Jackson Avenue, Tuesday afternoon, complimenting Mrs. R. B. Wiar.

Snapdragons and zinnias in a pretty arrangement made an attractive setting for the two tables of eighty-four players. At the conclusion of the games ice cream and cake was served.

Those present were Mmes. Bob Barrow, Bill Rountree, Tom Teague, J. E. Bury, E. M. Wilson, L. H. McBride, Mart Farroo, Roy Garner, John Vaughan, D. J. Payne, Clint Ferrell, Hibbs Milsap, Griffin and the honoree, Mrs. Wiar.

WOMAN'S MISSIONARY UNION HAD SOCIAL MEETING

A delightful social meeting was held for the Woman's Missionary Union in the reception room of the First Baptist Church Monday afternoon at four o'clock.

A number of interesting games and contests were directed by Mrs. J. Henry Littleton and Mrs. Wesley Johnson, of Dallas.

Following the games delicious cake and ice cream was served to twenty members.

MRS. PIKE ENTERTAINED WITH BRIDGE

Mrs. W. S. Pike entertained in her home on Jackson Avenue, Tues-

day afternoon with three tables of bridge.

Snapdragons decorated the entertaining rooms and vases of the same lovely flowers centered tables at the tea hour when a sandwich plate was served with punch.

In the contract games Mrs. W. R. Calhoun won high score. Others playing were Mmes. F. B. Moore, D. D. Harden, A. E. Pardue, C. C. Prater, B. L. Jones, W. F. Johnson, Paul A. Fowler, Bowen Pope, Joe Culbertson, Bob Low and L. H. McBride.

MRS. CLUNY HOSTESS TO CLUB

Mrs. Walter Cluny was hostess to the Blue Bonnet Club and other guests when she entertained in her home Tuesday afternoon.

Zinnias and crepe myrtle decorated the rooms where three tables of contract were in play. High score for the club was won by Miss Allie Whitley and for the guests by Mrs. B. W. Nobles. A salad plate with angel food cake and punch was served.

Members present were Mmes. W. J. Poe, D. J. Payne, George Bender, F. D. Wells, J. C. Culbertson, J. E. Bury, Pat O'Donnell; Misses Allie and Pearl Whitley. Guests were Mmes. B. W. Nobles, R. B. Wiar and Miss Eleanor Temple.

TEN HOT WEATHER RULES

Ten excellent hot weather rules are contributed by Gladys J. Ward, home management specialist of Illinois Agricultural College, to the current issue of THE PROGRESSIVE FARMER:

Eat moderately and use as many vegetables and fruits in the diet as possible.

2. Beware of drinking too much cold water when exceedingly warm as this may be injurious.

3. Get plenty of sleep.

4. Rest and relax at least 15 to 30 minutes at noontime each day.

5. Keep the pores of the skin open by frequent bathing and drink enough water to replace that lost through perspiration.

6. Do as much of your work in a cool, shady place as possible. When out in the hot sun exercise moderately.

7. Close the windows nearly shut and draw the blinds in the early morning. Air the house well during the evening and night.

8. Don't worry. It never gets anybody any place and it keeps the nervous system depressed and irritated.

9. Do not refer to the thermometer too frequently. Don't talk about the weather. Think of cool, pleasant things. The effect of heat are both physiological and psychological.

10. Keep "mentally" cool, if you can. If you cannot, do not make things worse by getting someone else "all het up" in an argument.

Claude Johnston of McKinney, Texas, was here last week to visit with the Rev. Whitaker family.

Dr. and Mrs. Joe McCrary went to Ruidoso last week on a short vacation trip.

REPEAL A FAILURE

Two years ago the opponents of prohibition promised us that if we would vote for repeal that there would be less drinking, bootlegging would be eliminated, the tax burden would be lightened by revenues from the liquor traffic, the unemployment situation would be relieved, the open saloon would not be permitted to return, and dry States would be protected. Statistics show that these promises have not been fulfilled.

Arrests for drunkenness in the United States has increased 26 per cent since repeal. Institutions for the care of alcoholic patients reported an increase of 40 per cent during the first year of repeal. The Northwestern Life Insurance Company reports a gain of 77 per cent in the number of those reporting the use of intoxicants during the last two years. People killed in the United States as result of drinking drivers has increased 33 1-3 per cent during the first two years of repeal. These facts prove conclusively that instead of there being less drinking as promised by the repealists, there has actually been an increase in drinking.

The problem of bootlegging has not been eliminated as promised by the advocates of repeal. Mr. Joseph H. Choate, Jr., head of the Federal Alcohol Control Administration, estimates that we are consuming a quantity of bootleg whiskey can not be much less, and may be more, than we drank during prohibition.

The tax burden of the people of the United States today, instead of being less, is actually greater than it has ever been before. The repealists promised us that the revenues from spirituous liquors would produce at least two billion dollars per year. Statistics show that the Federal Government has received only one hundred and fifty million dollars per year from this source. Statistics further show that the cost of enforcing the liquor law is greater than the cost of enforcing the prohibition law. Congress recently asked for an additional \$3,678,738 for the support of the Coast Guard to prevent rum ships from transporting spirituous liquors into the United States.

The unemployment situation in the United States has not been relieved by repeal, for Government statistics show that there are more people unemployed in the United States today than ever before.

The repealists promised that the saloon would not be permitted to return. Statistics show that there are nearly one-half million retail liquor places in the United States and that one-half of these are nothing but

open saloons.

The protection promised dry States by the repealists has not only been unfulfilled but has been flagrantly violated as shown by the fact that the Federal Government has issued 1742 licenses to sell hard liquor in the State of Texas, contrary to the laws of this State.

Therefore, the only logical conclusion to be drawn from the above facts is that repeal has failed. In the light of these facts, I earnestly appeal to the voters of the Twenty-Fourth Senatorial District to go to the polls on August 24th and vote to

keep our State dry.

THOS. E. HAYDEN, JR.,

Chairman of the Prohibition Forces in the Twenty-Fourth Senatorial District.

Mrs. N. F. Anderson and Miss Lou Dan Stephens left Sunday for Hot Springs, Ark., where they will spend two weeks vacation. From there they will go to New Orleans, La., before returning home.

SEES INFLATION A SLOW PROCESS

A Real Danger for the Future. Col. Ayres Tells Banking Groups.

NEW BRUNSWICK, N. J.—Present prospects do not indicate that inflation severe enough to cause further dollar devaluation will come soon in this country, but as an ultimate development it seems to be a very real danger. Leonard P. Ayres, Vice President Cleveland Trust Company, said here tonight in an address before the Graduate School of Banking. He believed this statement to be true "unless the government enters frankly upon a policy of issuing that money with which to meet its expenses." At present that does not seem to be in sight, he said.

The Graduate School is operated jointly by the American Institute of Banking Section of the American Bankers Association and Rutgers University to offer advanced studies for bank officers.

"We have so enormously increased the capacity of our banking system for credit expansion that it is difficult to see how we could have a vigorous business revival without having it develop into a credit inflation," Colonel Ayres declared.

Inflation a Slow Process

If inflation does come it will be a slow process, he said, pointing out that in Germany, France, Belgium and Italy it took about five years to develop from the time when the governments entered upon policies of financing large peace-time deficits by bank credit up to the time when the public generally began to spend money rapidly because of fear that it would still further depreciate in purchasing power.

"If we are to go through such a period here it would seem likely that it might last rather longer than the corresponding periods did abroad," he said. "Its beginning would date from the spring of 1933 when we left the old gold basis for our money and entered upon the policy of financing large governmental deficits by the sale of Federal securities mainly to banks rather than to private investors."

"The method that we are following is the one that proved disastrous in Europe for in all those countries including Germany, the increasing issues of money that caused the inflations were not mere printing press issues of flat currency, but were secured by government bonds and notes discounted at the banks. Nevertheless, the process is inherently a slow one."

Among the clearest lessons taught by the European experience, Colonel Ayres asserted, is that there are "no good hedges against inflation." He added:

Do Not Lighten Debt Burdens

"One of the strange facts about these inflations is that while they destroyed the values of most existing debts, they did not succeed in lightening the debt burdens of either the people as a whole, or of the corporations."

"Inflation destroys the value of bonds and mortgages and so confiscates the property of these holders of obligations and hands it over to the shareholders and the equity owners. However, it introduces so many new economic difficulties that these share and equity holders are at once forced to incur new indebtedness so that when stabilization comes the problems of debt are about as troublesome as they were before, or even more so."

The five requisites of inflation were listed by Colonel Ayres as first, a period of sustained active business; second, a rising stock market; third, real credit expansion; fourth, greater outflow of gold "than we can tolerate which would force us to cut our currency entirely free from gold"; and fifth, continued large budget deficits in government operation.

A PROPHECY

Significant economic developments to be expected in the next decade are listed by a prominent business writer as follows: (1) Higher standard of living. (2) Continued advances in technical processes of production. (3) Factory built houses, better and cheaper than hand made houses. (4) Somewhat cheaper money. (5) Faster travel. (6) News printed by radio. (7) Mechanical cotton picker, revolutionizing the South. (8) Cheaper electric power. (9) Better distribution of goods; more chain stores. (10) Another depression five or six years hence, preceded by an inflationary boom.

TWO QUESTIONS ANSWERED

Why is it that one farmer raises 100 bushels of corn to the acre, and the other one, on the other side of the fence, raises 25 bushels to the acre? Why is it that one farmer produces 100 pounds of pork on five bushels of corn, and another uses 25 bushels? Not until power machinery, scientific principles of soil fertilization and restoration, rotation of crops, diversification of crops and economical feeding are applied to the farm, will the farmers' problem be solved, says a farm authority.

BANKING READY

NEW YORK.—There is abundant evidence that banks are in an unusually favorable position to finance a period of industrial growth, says the June issue of "Banking" published by the American Bankers Association.

An official survey on June 10 indicated that the Government of the United States, through its loans, was the potential owner of more than half of the existing world stocks of American cotton.

Churches and Church Activities

SUNDAY SCHOOL NOTICE

The August meeting of the Jones County Association Sunday School will consider the "Past" and the "Future" in its program at Anson, Texas, at 3:00 P. M. August 4th.

The program scheme is as follows: 3:00, Song service; 3:06, Devotional; 3:10, Business; 3:15, Address "A Retrospect of Baptist Sunday School Work"; 3:35, "What a Standard Sunday School Means to Our Church"—Mr. Tate May; 3:55, Address: "A Prospect—Hats Off to the Future"—Ezra to rebuild the temple, and that Rev. Kelly Barnett; 4:15, Adjourn.

Every Baptist Church is urged to take advantage of the inspiration that this program shall offer.

—NEWTON J. WESTMORELAND.

WILL JONES COUNTY REMAIN

DRY LONGER THAN 54 YEARS?

The Young Peoples Division of Jones County's United Dry Forces will be seen in action on Thursday night, August 8th. This County-wide youth rally will be held on the court house lawn at Anson.

The meeting will have the advantages of a sound-car equipped for speaking and to render a musical program preceding the speaking. The speakers will be young men and women who have a deep interest in the future of Texas, and who wish to have Jones County remain legally dry after her outstanding record of 54 years as such.

Local leaders have been appointed in almost every Church in Jones County. These will be responsible for bringing the various community groups to Anson.

A goal of 200 has been set as the attendance mark for Jones County at the District Rally in Abilene, August 15th. Dr. T. C. Gardner, state Young People's Leader, will have charge of the program to be given on the T. & P. lawn.

The youth of Texas have adopted this slogan for the Dry Campaign: "Vote Against Whiskey For Texas Youth." They are calling upon the voters to help them build a greater

Texas.

Rev. N. J. Westmoreland, of An-

son, is serving as Young People's leader of Jones County.

Sincerely yours,

NEWTON J. WESTMORELAND.

—It Pays to Look Over the Ads.

We have had a number of visitors

METHODIST CHURCH

Well, the meeting at Trent is over and we are back on the job again. The meeting was a good meeting as far as the church membership was concerned but the outsiders were interested elsewhere. It is a pleasure to be back on the work and meeting with the people again. I am looking forward to this fall's work with much anticipation. Our vacation time will soon be over and we will rally again to the church and its work. Let's make it the greatest year in the history of this congregation.

Regular services Sunday, 10:45 A. M. and 8:15 P. M. We will now drop back to beans and cabbage since you will have to listen to my messages again. Small crowds go a long way in making a small sermon, but a

large and lively congregation are the means of making a good sermon out of what might have been a very average one. Let's try out the large crowds and see what effect it will have on the preacher.

Other services will continue as usual. Sunday School at 9:45; the Leagues at 7:03, and the Missionary Society Monday at 4:00 P. M. in the basement of the church unless otherwise stated.

Miss Margie Meadows of Temple, Texas, is spending the week with her aunt, Mrs. Paul A. Fowler.

attending church during the vacation season. Just the suggestion to your visitors that services will be held at your church would give them a good chance to attend church under new environments. You like to go new places so let them know that you will be glad to attend with them. You have a delightful church and the services are in keeping with those of other communities. Let's increase our attendance even before the fall months begin.

H. A. LONGINO, Pastor.

RUPTURE

SHIELD EXPERT HERE

H. M. SHEVANAN, widely known expert of Chicago, will personally be at the HILTON HOTEL, Abilene, Thursday and Friday, only, August 8 and 9, from 9 A. M. to 5 P. M.

Mr. Shevnan says: The Zoetic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly but will increase the circulation, strengthens the weakened parts, thereby closes the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume no matter the size or location. A nationally known scientific method. No under straps or cumbersome arrangements and absolutely no medicines or medical treatments.

Mr. Shevnan will be glad to demonstrate without charge or fit them if desired.

Address 6536 N. TALMAN AVE., Chicago.
